

## **The Brunswick Club for Young People Data Protection Policy**

### **Data Protection Principles**

The Brunswick Club is committed to processing data in accordance with its responsibilities under the General Data Protection Regulation (GDPR).

Article 5 of the GDPR requires that personal data shall be:

- processed lawfully, fairly and in a transparent manner in relation to individuals;

- adequate, relevant and limited to what is necessary in relation to the purposes for which they are processed;
- accurate and, where necessary, kept up to date; every reasonable step must be taken to ensure that personal data that are inaccurate, having regard to the purposes for which they are processed, are erased or rectified without delay;
- kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the personal data are processed; personal data may be stored for longer periods insofar as the personal data will be processed solely for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes subject to implementation of the appropriate technical and organisational measures required by the GDPR in order to safeguard the rights and freedoms of individuals; and
- processed in a manner that ensures appropriate security of the personal data, including protection against unauthorised or unlawful processing and against accidental loss, destruction or damage, using appropriate technical or organisational measures.”

### Addendum

*2<sup>nd</sup> December 2020*

#### **Data protection law in the UK before 31 December 2020**

UK organisations that process personal data are currently bound by two laws: the EU GDPR (General Data Protection Regulation) and the UK DPA (Data Protection Act) 2018. Under the terms of the European Union (Withdrawal Agreement) Act 2020, the UK is now in a transition period until 31 December 2020. Both laws continue to apply until the end of the transition period.

#### **Data protection law after 31 December 2020**

The EU GDPR will no longer apply directly in the UK at the end of the transition period. However, UK organisations must still comply with its requirements after this point. First, the DPA 2018 enacts the EU GDPR's requirements in UK law. Second, the UK government has issued a statutory instrument – the Data Protection, Privacy and Electronic Communications (Amendments etc) (EU Exit) Regulations 2019 – which amends the DPA 2018 and merges it with the requirements of the EU GDPR to form a data protection regime that will work in a UK context after Brexit. This new regime will be known as 'the UK GDPR'.

There is very little material difference between the EU GDPR and the proposed UK GDPR, so organisations that process personal data should continue to comply with the requirements of the EU GDPR.
